## Organize strikes, resignations, protests, or other acts of disruption to demand fair coverage and honest reporting on Palestine.

## Become or work with whistleblowers to expose the systems and persons complicit in manufacturing consent for the genocide and ethnic cleansing of Gaza.

## Utilize public platforms in video, print, audio, and social media to publish stories about Gaza, speak truth to power, challenge misinformation, reject anti-Palestinian racism, and condemn the targeting and killing of Palestinian journalists and their families.

## Demand a systemic end to journalistic malpractice with regards to Palestine, including war crime denialism, state stenography, fact omission, fabrication, passive voice, deliberate undermining of Palestinian interviewees, and the use of dehumanizing language and racist and Islamophobic tropes.

## Demand that foreign correspondents be let into Gaza and trust the expertise and firsthand knowledge of Palestinian journalists in Gaza who risk their lives to provide real-time coverage and analysis of the Israeli army's atrocities.

## Replace pernicious and reductive media framings like “Israel-Hamas war,” “ Hamas-run hospital,” “clashes,” etc., with accurate and truthful language that highlights the context of Israel’s decades-long siege of Gaza, including “genocide,” “blockade,” “occupation,” and/or “Israel’s assault on the besieged Gaza Strip.”

## Demand an end to all recrimination against media workers advocating in solidarity with the Palestinian people and enact protections that safeguard them from disciplinary action.

## Demand and facilitate publishing the names of Palestinian victims—women, children, and especially the often-dehumanized men, whose numbers are reaching 10,000 and rapidly increasing every hour, especially with hundreds, if not thousands, still under the rubble.

*(Demands of the international, multi-industry call made by the Palestinian Youth Movement, National Students for Justice in Palestine, and others for labor unions, the student sector, media workers, and others.)*

*According to the Committee to Protect Journalists, over half of the journalists reporting from Gaza have been killed. In order to control the news coming out of the besieged territory, Israel has also deployed tactics including barring the entry of foreign correspondents and targeting journalists' families. On October 25, Al-Jazeera's Gaza bureau chief Wael Dahdouh learned live on air that an airstrike had killed his wife and two of his children.*

**These are the names of only 2,608 of the over 10,000 dead ...**

By the time you read this, the total number of people killed by the Israeli assault against Gaza will have risen. An exact number is impossible to calculate: thousands of people remain trapped, dead or dying, under the rubble of their destroyed houses. Each casualty of this genocide had a life of their own with dreams, goals, hopes, fears. Each loved and was loved. Each is mourned and remembered. None of them was a number.

**Do not let them be forgotten.  
Stop the genocide.  
Ceasefire now.  
Free Palestine!**
